DIFFERENT TYPES OF SKIN REACT DIFFERENTLY TO THE SUN

The photosensitivity of each individual differs depending on their phototype, which is based on their skin tone, hair colour and skin reactivity.

VERY LIGHT SKIN TONES
- Extremely sensitive to the sun
- Constant sunburn
- Tans with great difficulty and burns/reddens

LIGHT SKIN TONES
- Sensitive to the sun
- Frequent sunburn
- Tans with difficulty and burns/reddens

MEDIUM SKIN TONES
- Somewhat sensitive to the sun
- Occasional sunburn
- Tans gradually

DARK SKIN TONES
- Not sensitive to the sun
- Very rare sunburn
- Tans quickly and intensely
ALL SKIN TYPES AND TONES ARE SUSCEPTIBLE TO SUN-INDUCED SKIN AGEING

In addition to harmful UV rays, **BLUE LIGHT**, also known as high-energy visible light (HEV light), comes from both natural light sources (the sun) and artificial sources of light (screens and electronic appliances).

- Blue light from the sun is twice as intense as UV rays.

- It deteriorates DNA through oxidation, causing damage similar to that caused by UVA rays.

Consequences of UV RAYS and BLUE LIGHT on the skin

- DARK SPOTS
- DEEP WRINKLES
- LACK OF FIRMNESS
SUN LOGIC is an anti-ageing and sun care range that offers a twofold protection against the sun’s harmful effects and skin ageing.

This range complements sun protection products by preparing, repairing and soothing the skin and enhancing your tan.

The products are formulated and manufactured in the same conditions as medicine for the skin.
SUN LOGIC products protect the skin from UVA/UVB rays and from blue light, due the combination of filters and Melanin or Lutein.

**SUN PROTECTION**

**FILTERS: PROTECTION AGAINST UV RAYS**
+ **MELANIN/LUTEIN: PROTECTION AGAINST BLUE LIGHT**

**WIDE SPECTRUM**
- 50+ FPS SPF
- 50 FPS SPF
- 30 FPS SPF
- 20 FPS SPF

**EPIDERMIS**

**DERMIS**

**HYPODERMIS**

**SUN FILTERS**
- Extensive protection against UVA/UVB rays.

**MELANIN/LUTEIN**
- Help reduce the harmful effects of blue light (caused by the sun and screens) and thereby reinforce the skin’s natural protection.
ANTI-AGEING PROTECTION

Sun exposure makes the skin age faster. What’s more, over time, the skin’s natural defences become less effective against the sun’s harmful effects.

SUN LOGIC helps ensure anti-ageing protection due to:

- DNA
- MELANIN/LUTEIN
- ELASTOPROTectINE

**DNA**
- Sacrifices itself to protect the DNA in the cells’ nuclei

**MELANIN/LUTEIN**
- Protects DNA from the harmful effects of blue light

**ELASTOPROTectINE**
- Protects elastic fibres
MELANIN OFFERS PROTECTION FROM THE HARMFUL EFFECTS OF BLUE LIGHT.

We have observed a 40% decrease in DNA damage.

LUTEIN (ingredient in AGE SUN Anti-ageing Sun Dry Oil SPF 50 and AGE SUN Anti-ageing Sun Mist SPF 30) OFFERS PROTECTION FROM BLUE LIGHT.

We have observed a 31% decrease in DNA damage.

SUN LOGIC products have demonstrated significant effectiveness in offering protection from DNA damage caused by blue light exposure.
CELLULAR LIFE COMPLEX AGAINST SKIN AGEING

The Cellular Life Complex is made up of 56 ingredients used to reconstruct the skin, especially when treating severe burn patients. The Cellular Life Complex brings about an even tan by helping to prevent the appearance of signs of premature ageing (wrinkles, lines etc.) and dark spots.
AGE SUN SUMMUM
ANTI-AGEING SUN CREAM
FACE - SPF50+

The quintessence of anti-ageing sun protection formulated with the Cellular Life Complex to maintain your skin’s youthfulness in the sun.

AGE SUN
ANTI-AGEING SUN CREAM
EYES - SPF50+

This cream has been specially formulated to protect the fine and fragile skin in the eye contour area, which requires specific protection from the sun.

AGE SUN
ANTI-AGEING SUN CREAM
FACE - SPF50

The high-protection formula protects the skin against sunburn and UV rays, which cause skin ageing.

AGE SUN
ANTI-AGEING SUN DRY OIL
BODY - SPF50

Dry oil offering high sun protection and a gorgeous tan, for beautiful sun-kissed skin.
HIGH TO MEDIUM SUN PROTECTION

5. **AGE SUN**
   **ANTI-AGEING SUN CREAM**
   **FACE - SPF30**
   Effectively prevents sunburn and helps protect against the harmful effects of UV rays, which cause skin ageing.

6. **AGE SUN**
   **ANTI-AGEING SUN MIST**
   **BODY - SPF30**
   Quick and practical to use and ensures head-to-toe sun protection.

7. **UNI BRONZE**
   **ANTI-AGEING TINTED SUN CREAM**
   **FACE - SPF20**
   The formula protects the skin against sunburn and helps all skin tones achieve an even, radiant and tanned complexion.

8. **AGE SUN**
   **ANTI-AGEING SUN LOTION**
   **BODY - SPF20**
   Helps protect the skin against sunburn and the harmful effects of UV rays. Its light and smooth texture is easy and pleasant to apply.
LONGUE VIE SOLEIL
YOUTH CREAM BEFORE AND AFTER SUN FACE
This unique sun care product prepares the skin before sun exposure and repairs the skin after sun exposure by reinforcing the skin's natural defences. It helps maintain the skin's youthful and tanned appearance.

LONGUE VIE SOLEIL
YOUTH LOTION AFTER SUN BODY
This body care product reinforces the skin's natural defences to neutralise the effects of UV rays on skin ageing more effectively. After sun exposure, the skin appears visibly more youthful, soothed and nourished, and the tan lasts longer.

PRO SUN
ANTI-AGEING SUN CAPSULES
These sun capsules are enriched with Beta Carotene and Vitamins which help reinforce the skin's natural defences against sun-induced oxidative stress, making it easier to tan and to stay tan.
SELF-TANNERS

מנעزهر אוטומטי

 zelf-tanner face gel

The tinted gel formula is easy to apply for a natural, even finish without streaks or blotches. Provides an instantly tanned and healthy appearance.

 SELF-TANNER body lotion

This tinted lotion offers a natural and even tanned appearance to the entire body. The skin is instantly tan and stays that way for a long time.
PREPARE AND REPAIR YOUR SKIN WITH YOUR BEAUTY THERAPIST

PREPARATION TREATMENT – FACE (Pre-sun)
Treatment method using a machine

This treatment helps effectively prepare the skin before sun exposure to maintain youthfulness and prepare for tanning.

HYDRADERMIE LONGUE VIE SOLEIL

REPAIR TREATMENT – FACE (After-sun)
Treatment method using a machine

This treatment helps effectively repair and regenerate the skin after sun exposure. It soothes the skin and restores youthfulness.

HYDRADERMIE LONGUE VIE SOLEIL
SUN-FREE TANNING
WITH YOUR BEAUTY THERAPIST

SELF-TANNING TREATMENT – BODY
Manual treatment method

This treatment provides a natural, even tan and softness to the skin.
